DISHWASHER PROOF. ACCORDING TO DIN EN 12875-1 / 2:2005  
All RIEDEL glasses are certified as being dishwasher safe for 1500 cycles, under Norm EN 12875-1 / 2.  
In normal usage, this corresponds to a lifespan of 10 years, without any visible deterioration of the glass surface.

We regret any errors in our specifications for sizes, colours, volumes or prices. However, claims resulting from such errors cannot be accepted.

## HAND-MADE PRODUCT

The origin of blown glassware dates back 2000 years. The Romans were the first to use this technique. At RIEDEL, in Kufstein, we exclusively produce hand-made glass. Each hand-made, hand-made item is individually crafted by our master glassmakers. The expertise of these craftsmen guarantees that the quality of each glass meets the high standard for which our brand is known. Because of the hand-crafting, small tolerances in the size and weight of each glass, tiny bubbles / imperfections and slight surface variations are a feature and an acceptable part of the process

LOGO FOR HAND-MADE GLASSWARE

# SOMMELIERS R-BLACK SERIES (COLLECTOR'S EDITION)

SOMMELIERS R-BLACK SERIES black, non-transparent; fine crystal, and blown into shape using the original molds, the black series celebrates this remarkable anniversary.

Crystal turns black by adding cobalt and manganese to the composition. To raise the bar of glass making further, The stem of sommeliers "R" black series was upgraded by adding a fine red glass string which is jacketed in clear crystal.

Sommeliers black series can be used as a drinking vessel but it is primarily considered as an object of beauty gracing the homes of wine collectors.

# SOMMELIERS BLACK TIE

SOMMELIERS BLACK TIE was launched in 2008 to celebrate the 50<sup>th</sup> Anniversary of the iconic Sommeliers Burgundy Grand Cru glass. The Red Wine glasses are highlighted by a tall black stem and the White Wine glasses feature a black base, making this one of Riedel's most exciting collections.

# SOMMELIERS

SOMMELIERS (1973) Professor Claus J Riedel was the first designer to recognise that the bouquet, taste, balance and finish of wines are affected by the shape of the glass from which they are consumed. In the late 1950s, RIEDEL started to produce glasses which at that time were a design revolution. Thin-blown, unadorned, reducing the design to its essence, bowl, stem, base.

Working with experienced tasters, RIEDEL discovered that wine enjoyed from his glasses showed more depth and better balance than when served in other glasses. In 1961, a revolutionary concept was introduced, when the RIEDEL catalogue featured the first line of wine glasses created in different sizes and shapes. The concept illustrated to perfection with the introduction of the SOMMELIERS series in 1973, which achieved worldwide recognition. A glass was born that turns a sip into a celebration - a wine's best friend - fine-tuned to match the grape!

# FATTO A MANO

"Fatto a Mano", meaning hand-made in Italian, is Riedel's stunning new introduction for 2017. Hand-made in Tiroler Glashütte, at Riedel's headquarters in Austria, this new stemware collection bears the typical attributes of a Riedel product: varietal specific, thin blown, unadorned, and standing tall on slender stems.

With its hand-made stem and base, "Fatto a Mano" combines the crafts of the past with today's technologically-advanced, machine blown techniques. The finished product charms the eye with its hand-crafted feel, colourful aesthetics and varietal specific bowls. The colours of the stems are white, black / pink, yellow, red, green and blue.

YEARS

RIEDEL SUPERLEGGERO

# RIEDEL SUPERLEGGERO

## RIEDEL SUPERLEGGERO (2023) - PREMIUM MACHINE-MADE PRODUCTION

In homage to the 50th Anniversary of Sommeliers, which changed the art of glassmaking as we knew it, RIEDEL Superleggero has reintroduced the glass shapes and transformed into a precision-made, machine-crafted collection, setting a new benchmark for premium machine-made wine glasses.

With the introduction of the Sommeliers series in 1973, Prof. Claus J. Riedel created a new glass industry. In 2023, RIEDEL will once again prove its pioneering role unveiling RIEDEL Superleggero made by machine at its own factory in Weiden, Germany.

## Grape Varietal Specific Code

On the center of the base, below the stem, you will find a code which assists in identifying the right glass for your favourite Grape Variety.

- R1 - Riesling
- R2 - Chardonnay
- R3 - Sauvignon Blanc
- R4 - Champagne Wine Glass
- R5 - Spirits
- R6 - Hermitage/Syrah
- R7 - Burgundy Grand Cru
- R8 - Bordeaux Grand Cru

# RIEDEL VERITAS

RIEDEL VERITAS (2014) - A glass machine blown fine crystal of unsurpassed thinness and lightness. RIEDEL VERITAS combines the charm of a handmade glass with the consistent accuracy only a machine made glass can achieve. Veritas is a collection 15% taller than Vinum (Riedel's first, and benchmark machine-made line introduced 1986) but 25% lighter and finer, while maintaining dishwasher safety, resistance against breakage, and suitability for long term daily home use.

# RIEDEL WINE WINGS

Flat-bottomed and reminiscent of an aircraft wing, complete with winglets, RIEDEL Winewings was born and about to take flight! While not the most visually beautiful collection, RIEDEL Winewings is "brutally functional, taking the wine's aromas and flavours on a flight," Georg says. RIEDEL Winewings glasses primarily emphasise the minerality of the wine, whereas all other collections tend to highlight fruit. The collection is ideal for the ultimate wine geek who prefers wines with depth and complexity. RIEDEL Winewings is produced by machine in lead-free crystal glass and sold as a single glass. All RIEDEL glasses are dishwasher safe.

# RIEDEL VELOCE

Looks and feels handmade!

This new glass collection is, in fact, produced by machine, using new, cutting-edge technologies and is a true precision tool.

Wine-lovers the world over understand that Riedel wine glasses are developed in different shapes and sizes, for specific grape varieties. Only such advanced machine production can guarantee such precise glass design language, in harmony with the respective profile of grape variety.

# VINUM

VINUM (1986) became the first machine made glass in history to be based on the characteristics of grape varieties. VINUM was not developed on a drawing board, but in tasting work shops based on the performance where the content commands the shape. The pleasure of enjoying fine wine starts with the right glass.

# EXTREME

The Extreme glasses derive their name from their extreme contours. The bowls are reminiscent of polished diamonds that spread out wide and taper off at the top. This allows the wine plenty of room to breathe, enhancing and emphasizing the pleasant softness and generally fruity notes of the New World wines.

# RIEDEL BAR

RIEDEL BAR (2008) are designed to enhance the enjoyment of spirits by showcasing the aromatics of alcohol. RIEDEL adopted the same approach in developing spirits glasses as they do to refine their wine glass shapes. These are not glasses created on the drawing boards, but through trial and error, tasting, re-tasting and elimination, until the ultimate glass is apparent.

Aided by the world's most renowned spirit experts, the panel evaluates the effect of shapes, size and rim diameters/tasters determine which silhouettes show the most popular spirits and fortified wines to their greatest advantage on the nose and palate, without losing the carefully crafted nuances of distillation to the dominance of alcohol.

# TUMBLER COLLECTION

Presenting the Riedel Bar Tumbler Collection - the perfect "must have" glasses for all cocktails and mixed drinks. Inspired by the glamorous Art Nouveau period, these elegant, decorated crystal tumblers present a contrast to Riedel's purist, unadorned wine glasses.

Spirits and cocktail connoisseurs will enjoy discovering the versatility of these stylish, yet subtly nostalgic glasses for the enjoyment of Whiskies, Gin and Tonic, Cocktails and Mixed Drinks alike.

# SL RIEDEL STEMLESS WINGS

This stemless creation is the perfect complement to the original stemmed series, featuring three stemless wine tumblers crafted by Georg Riedel: **Riesling, Pinot Noir and Cabernet Sauvignon**. These three shapes have been redesigned to ensure they sit comfortably within the drinker's hand.

Georg Riedel is rightly excited by the **new look of this thin-blown collection** and invites you to experience how well it sits in the hand, with a **unique curvature that helps you nestle the product perfectly between thumb and fingers**. Pour some good wine and enjoy the new SL RIEDEL Stemless Wings collection!

# O WINE TUMBLER

O (2004) is the first varietal specific wine tumbler in history. O is an innovative take on the casual wine glass for total wine enjoyment. O is based on the benchmark shapes of RIEDEL VINUM to enhance the world's most important grape varieties.

The tumbler, used for centuries as an all-round drinking vessel, is now turned into a sophisticated wine accessory. It is stackable for easy storage and fits into every dishwasher. Broken stems are a thing of the past.

# DECANTER HAND-MADE

## AYAM DECANTER

2016 - Maximilian J. Riedel creates the Ayam Decanter which takes its name from the world's most exclusive and coveted breed of hen, indigenous to Indonesia to celebrate the 260th Anniversary of Riedel Crystal. With a dual decanter function- wine is aerated both when it is poured into and from the decanter, significantly reducing the time needed to "open up" the wine. The gurgling sound produced when wine poured into and from the decanter illustrates the intensity of the oxygenation process. The shape of the decanter is space-saving and makes it easy to handle

## MAMBA DECANTER

The alluring Mamba, designed by Maximilian J. Riedel, is redolent of a sleek mamba snake. As the wine flows through every bend, it is double-decanted, "opening up" upon entering the decanter, achieving what would take hours of decanting in a typical bowl-shaped carafe.

DECANTER  
HAND MADE

These decanters are beautifully unique, engraved with 1 out of 500 or 1 out of 300 and comes together with their own certificate. The masterpiece in Riedel's decanter collection, the Riedel Amadeo Decanter was originally created to celebrate the company's 250th birthday and has gone on to be one of their most popular products.

Wine is simply decanted into the vessel's wider opening and poured into the glass through its slender mouth. Effortless and pleasurable to use, the Amadeo decanter is a reminder that functional objects can be works of art – a classic RIEDEL hallmark.

The Riedel Amadeo Decanters are hand-blown and handcrafted from high-quality lead-free crystal glass, and is available in different iterations due to its ease of use and classics design.

**DECANTER  
HAND-MADE**

**CURLY DECANTER**

The coils and curvature of the Curly decanter helps to charge and aerate wine. The twists of the decanter form a soft and playful spiral, with a closed "tail end" and wider spout for easy pouring. This decanter has been handmade, meaning each piece is slightly unique.

For perfect glass care, RIEDEL exclusively recommends using Miele dishwashers. With its unique combination of intelligent features, Miele is the specialist when it comes to protecting glassware:

Perfect GlassCare:  
helps your glassware retain its sparkle

'Gentle' programme:  
perfect control of glass-care parameters

3D cutlery tray:  
ample space even for tall stemware

DeLuxe basket design:  
secure hold for wine glasses

AutoOpen drying:  
gentle, sparkling drying without the need for polishing

CareCollection:  
perfectly matching detergents with special glass-protection formula

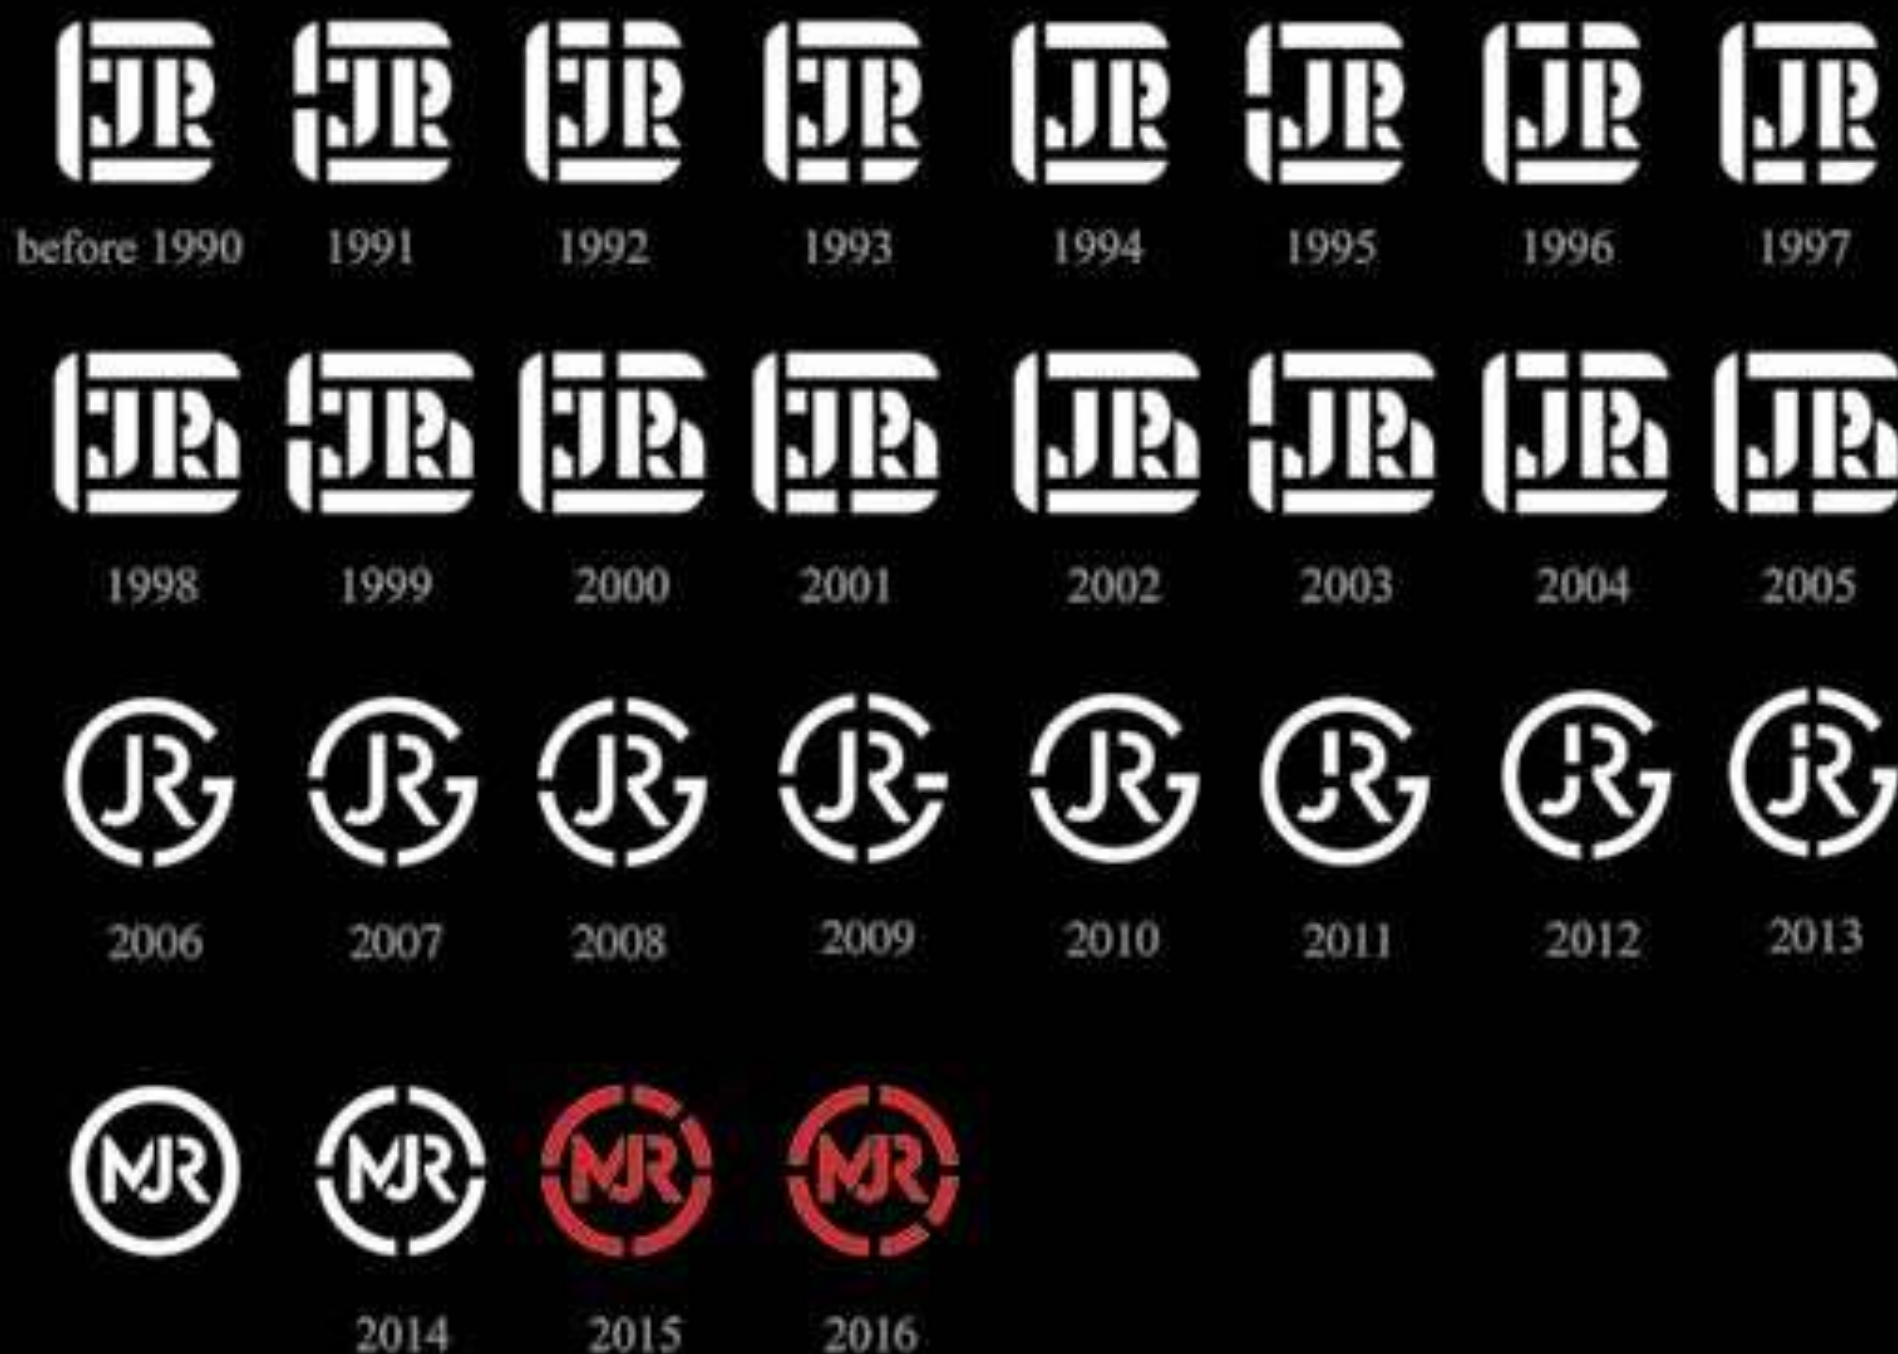

Miele dishwashers ensure the long lasting brilliance of your fine RIEDEL glassware. For more information, visit [www.mieleglasscare.com](http://www.mieleglasscare.com)

## TRADEMARK

The RIEDEL TRADEMARK dates from the Art Nouveau period at the end of the nineteenth century, and was used for RIEDEL glassware made in Bohemia from 1890 to 1925. In 1996, to commemorate RIEDEL'S 240th anniversary, we reintroduced this trademark for all our hand-made, hand-made products. The distinctive Rie- del signature is now featured on the base of all these products made in Austria. This signature trademark (1) helps our customers to distinguish immediately between hand-made products and those made by machine (2). Our machine-made products carry this trademark. The RIEDEL glass dynasty is built on the creative ener- gies of a long line of glassmakers. The story begins in 1756 in Bohemia and continues right down to the united Europe of today, taking in on the way some of the most dramatic events in European history.

(2) **RIEDEL**

# INSTRUCTIONS

## Microfiber Polishing Cloth

- Wash at boiling temperature (to kill bacteria) with odorless soap
- Should be machine washed at min. 170° F/ 75° C
- Never use fabric softener when rinsing your microfiber polishing cloth (avoids grease film on surface)

## Caring for your Riedel Crystal

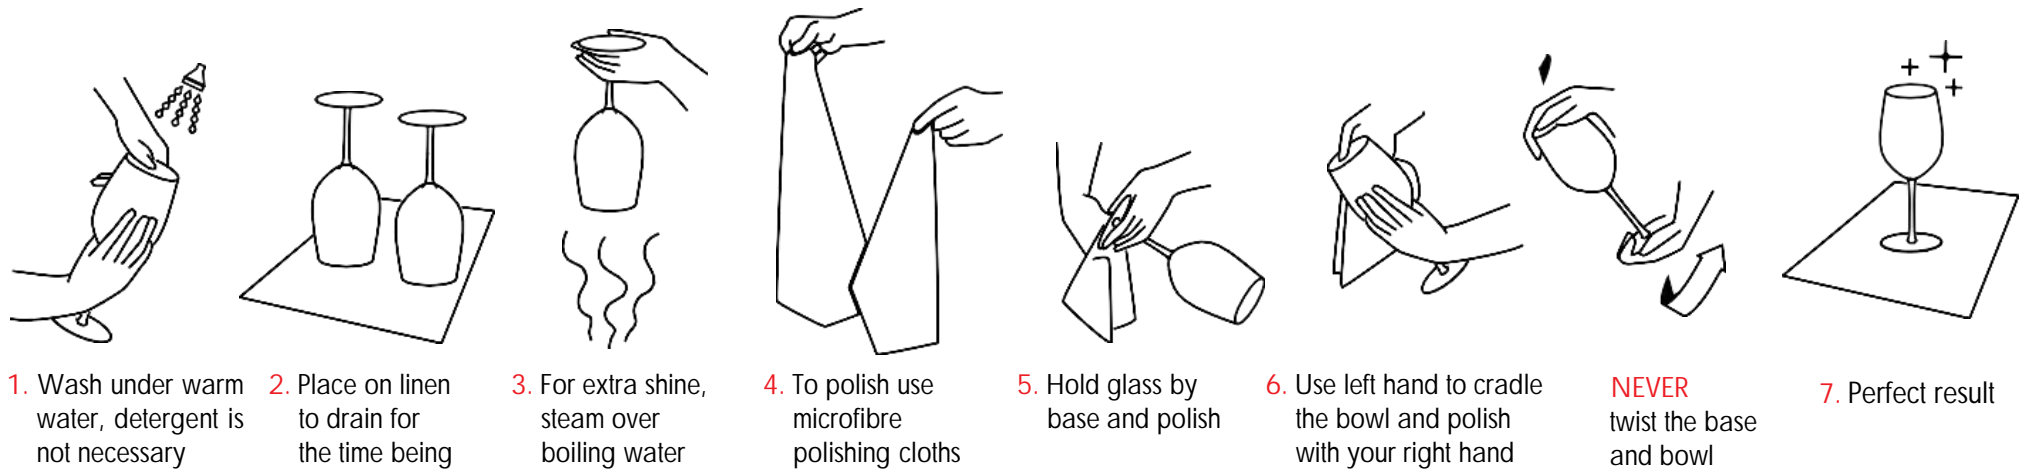

- Riedel glasses are dishwasher safe
- To avoid scratches: Avoid glass contact with other glass or metal
- If available use a stemware rack
- to avoid stains: use soft water (low mineral content)
- to remove stains: use white vinegar

## If washing by hand

- Wash the glass under warm water (use detergent and rinse the glass carefully)
- Glass polishing: Use two polishing cloths, never hold the glass by the base to polish the bowl
- Stem snap: Occurs through mishandling = torque or bend pressure at the stem
- Storage: Avoid glass storage in kitchen cabinets which have strong aromas that translates into glass

## For a perfect result

CAUTION: A Riedel glass is a grape varietal specific wine tool! This shape works best with wines made from specific grapes. Please read the instructions below to guarantee maximum enjoyment. Riedel has researched the

grape varietal sensation, leading to the conclusion, on which the world's wine experts agree; that the enjoyment of aroma, taste, texture and finish of a wine, is maximized by using the right "WINE TOOL"

## Rules when handling connoisseur glasses

### 1 Filling the glass

Fill the glass only to the widest diameter of its bowl. This will ensure maximum development of the wine's bouquet, and also provide the most elegant table setting.

### 2 Holding the glass

The appropriately filled glass should always be held by the stem rather than the bowl, as heat from the hand could raise the temperature above its optimum and negatively influence the bouquet of the wine.

### 3 Swirling the glass

Carefully swirling the glass allows oxygen into the wine by increasing its surface area and helps release the wine's rich, mature aroma.

### 4 Why and how to decant wines

To decant wine means to transfer it from its bottle to a decanter or carafe before drinking. During storage or aging, wine can develop a solid deposit or sediment at the bottom of the bottle. Decanting is an easy means of separating the sediment from the wine. It also helps the wine breathe, as the greater surface diameter lets more oxygen reach the wine than the bottle does. Red wines should be decanted well before serving and allowed to rest at room temperature for up to one hour to allow the wine to fully develop its bouquet.

### 5 Wine temperature

Before decanting/ or serving wine, store it at appropriate temperatures (red wine 59-63°F, 15-17°C, white wines at 50-54°F, 10-12°C). The proper serving temperature enhances the quality of the wine by allowing it to fully develop its characteristic aromas and flavours.

# "SENSORY" WORK SHOP

STEMWARE CONSISTS OF 3 PARTS: THE BOWL, STEM AND BASE

## Fine rim

Laser cut, polished rim essential to direct the flow of wine to the correct part of the tongue.

## Grape varietal specific bowl

Wine friendly bowl shape enables the wine to develop its tastes and aromas. Grape varietal specific stemware features finely-tuned glass bowls consisting of 3 variables: shape, size and rim diameter. Grape varietal specific stemware has to translate the "message" of wine to the human senses.

## Fine crystal

Colourless and transparent, lead-free fine crystal ensures perfect clarity, essential to see the exact colour.

## Invisible joint

Joints are subtle and perfectly crafted

## Seamless stem

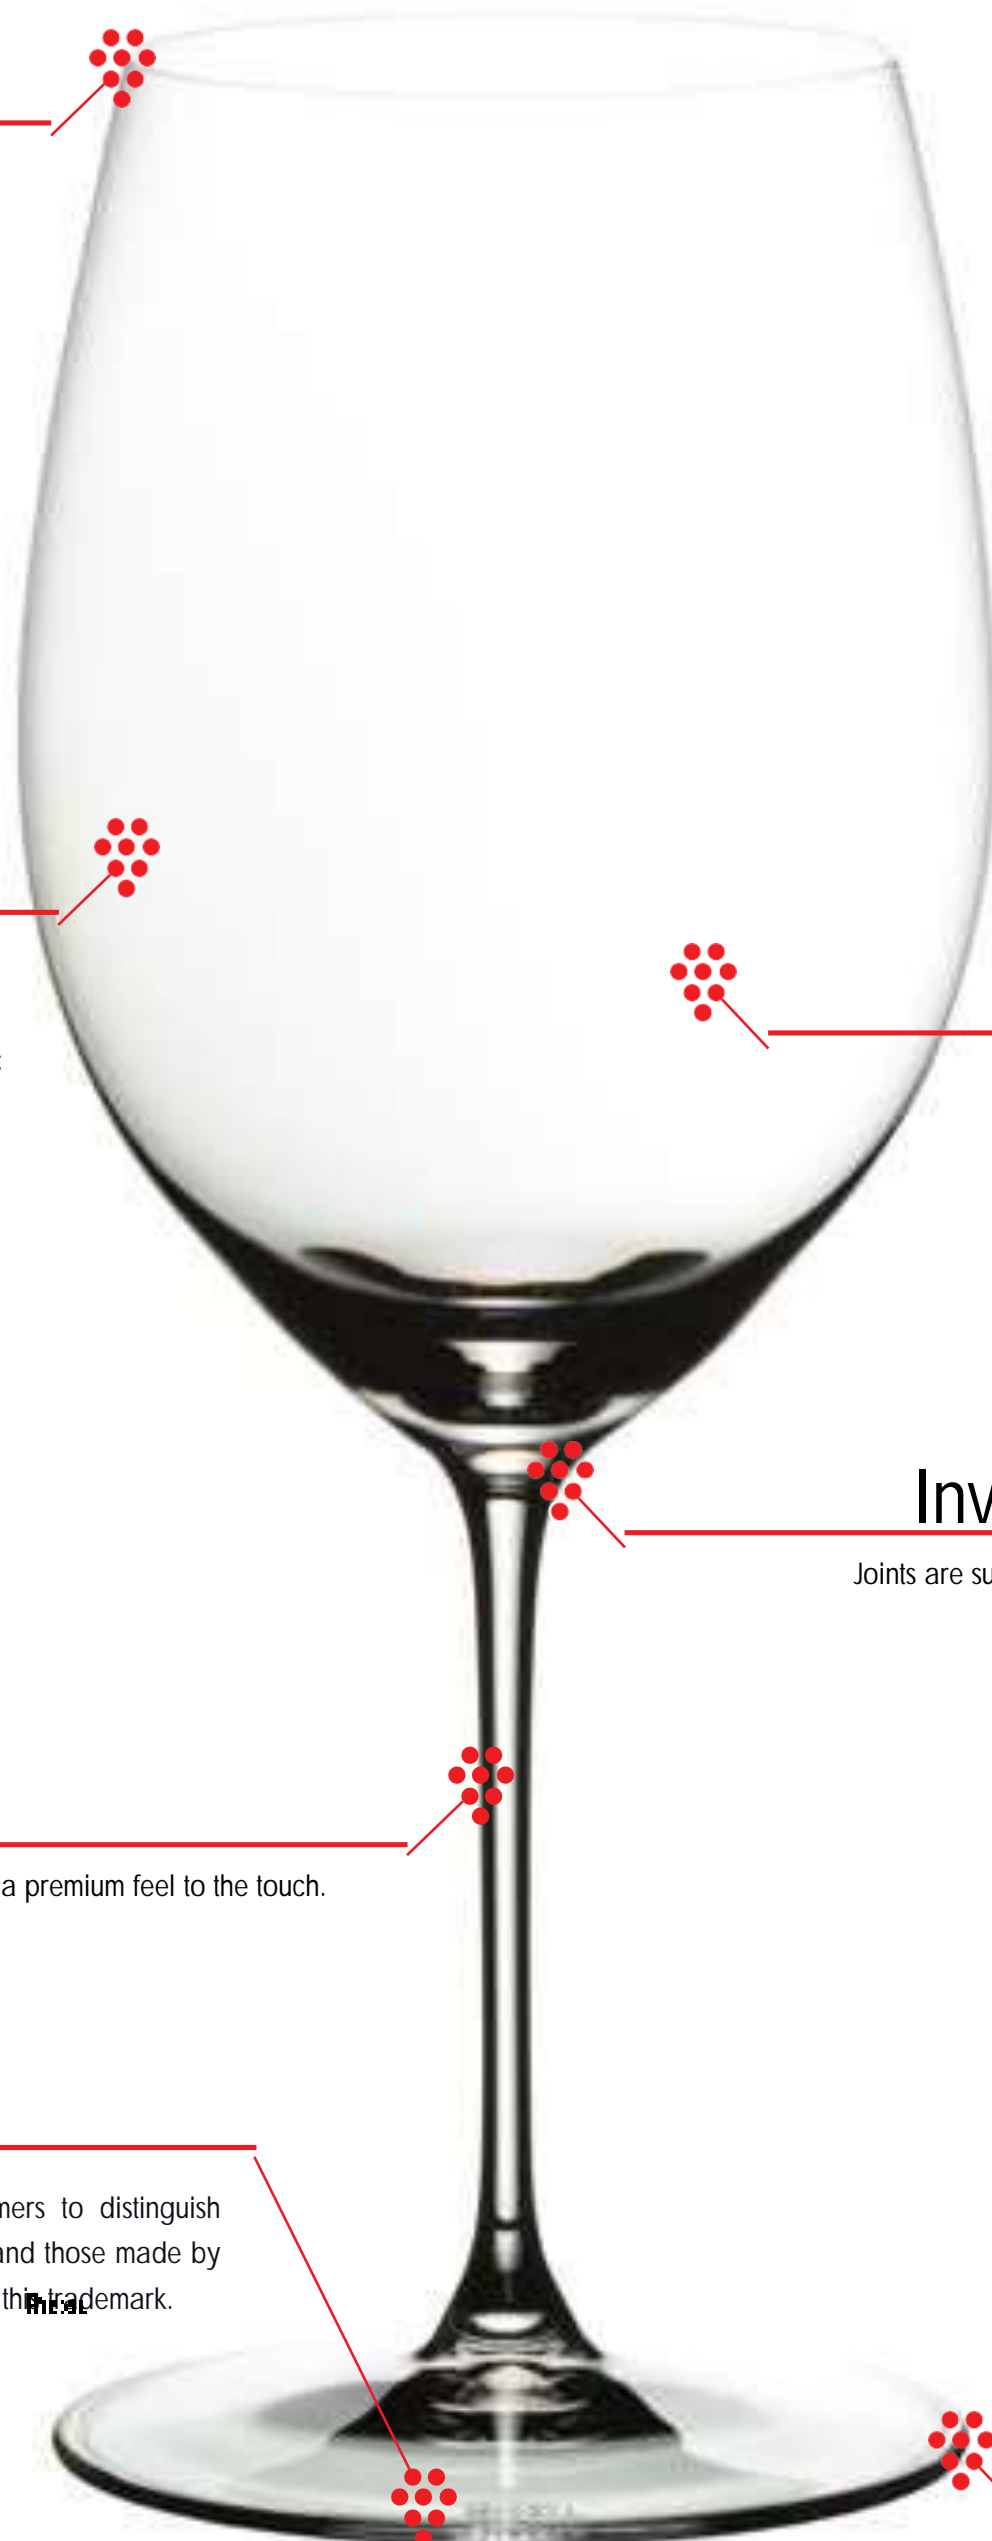

Smooth, elegant and seamless, the stem has a premium feel to the touch.

## Logo

This signature trademark helps our customers to distinguish immediately between hand-made products and those made by machine. Our machine-made products carry this trademark.

## Base

Greater stability and breakage resistance
